

# Falke Coin (FLK) - Whitepaper

## 1. Project Overview

Falke Coin (FLK) is a utility token on the Binance Smart Chain (BEP-20). It is designed to create an innovative and practical payment system for bars, restaurants, events, and the hospitality industry.

Goal: 1 FLK = 1EUR

Use: Payments, loyalty programs, event tickets, vouchers

## 2. How the Project Works

### - Real-World Use:

FLK is accepted directly in local partner venues (bars, clubs, gastronomy, events).

Users make digital payments via QR code or mobile app.

Vendors receive FLK pegged to EUR value through liquidity pools.

### - Token in Circulation:

Every transaction transfers FLK peer-to-peer.

Vendors can exchange FLK or reuse it within the system (e.g., promotions).

### - Partner System:

Businesses use FLK for cashback or loyalty rewards.

Events can sell tickets directly in FLK.

## 3. Technology & Blockchain

- Chain: Binance Smart Chain (BEP-20)
- Smart Contract: 0x414D17dC814726a137aceCfDD09dda425142A21D
- Security: Verified code, anti-bot measures
- Fees: Minimal (BSC standard), ideal for micro-payments
- Governance: Community and partner driven

4. Tokenomics

Category	Allocation	Description
-----	-----	-----
Liquidity Pool	30%	PancakeSwap trading + price peg
Community/Rewards	25%	Airdrops, events, user incentives
Team & Development	15%	Vested long-term
Marketing & Listings	15%	Partnerships, promotions, exchange
Reserve & Burn	15%	Reserve fund and planned burnings

5. Vision & Scaling

- Mobile wallet app
- Staking & NFT-based loyalty features
- Integration with POS/gastro software
- Event & venue partnerships

6. Trust & Transparency

- Liquidity Lock: via Unicrypt or Mudra

- Audit: planned or completed (e.g. SolidProof)
- Team KYC: verified on platforms like PinkSale
- Whitepaper & smart contract publicly accessible
